M72.02 EVALUATION FACTORS FOR BEST OVERALL VALUE (DOMESTIC) (DESC JUL 2003)

- (a) **APPLICATION.** This provision applies only after all price evaluation factors have been considered.
- (b) **BASIS OF AWARD.**

(1) The Government will award contracts to the responsible offeror(s) whose offer conforms to the solicitation and that represents the best overall value. The Government will determine best overall value on the basis of an integrated assessment of the following evaluation factors, which are in descending order of importance:

- (i) Price;
- (ii) Past Performance; and
- (iii) Socioeconomic Commitment.

The relative influence of price, past performance, and socioeconomic commitment will depend on the differences among the competing offerors, and not on any predetermined, fixed, weighted arrangements or trade-off formula. Price is more important than past performance, and price combined with past performance is significantly more important than socioeconomic commitment. All evaluation factors other than price (past performance and socioeconomic commitment), when combined, are approximately equal to price in importance.

(2) In determining best overall value, the Government will evaluate and rate each offeror's past performance based on preestablished standards. The offer(s) selected as best value will represent the best tradeoff to the Government among price, past performance, and socioeconomic commitment. The Government may make award to other than the lowest priced offeror; however, the Government will not pay a premium that it considers disproportionate to the benefits associated with the offeror's record of past performance and socioeconomic commitment.

(c) **ACCEPTABILITY OF OFFERS.** An offer will be considered acceptable if, and only if, an offeror agrees to the terms and conditions in the solicitation, or if the Government has accepted any exceptions submitted with the offer.

(d) **EVALUATION OF PAST PERFORMANCE.**

(1) The Government will evaluate, based on preestablished standards, the quality of the offeror's past performance. This may include any aspect of past performance related to this solicitation. The assessment of the offeror's past performance will be used as a means of evaluating the offeror's ability to meet the solicitation requirements. A record of poor past performance may be considered an indication that the offeror has failed to conform to contract requirements and/or to standards of good workmanship; to adhere to contract schedules, including the administrative aspects of performance; to provide reasonable and cooperative behavior and commitment to customer satisfaction; and/or to display a business-like concern for the interests of the customer. Offerors shall be afforded an opportunity to address unfavorable reports of past performance, and the offeror's response, or lack thereof, will be taken into consideration. Recent contracts may be examined to ensure that corrective action measures have been put in place to prevent the recurrence of past performance problems. Prompt actions taken to correct performance problems may be considered a reflection of management concern for customer satisfaction; however, such action may not mitigate all negative performance trends. Additionally, a record of satisfactory or exceptional past performance will not result in a favorable assessment of an otherwise unacceptable proposal. Offerors lacking relevant past performance history or for which past performance information is not available will not be evaluated favorably or unfavorably on past performance.

(2) The Government reserves the right to consider any information available to it in evaluating an offeror's past performance. This includes information obtained from the offeror's references, past and present customers, subcontractors, and any other sources that may have useful information. However, the Government reserves the right not to contact all of the references listed by the offeror. The Government also reserves the right to assess the offeror's past performance based solely on the offeror's performance under an existing DESC contract or a previous DESC contract for work similar to that required by the solicitation.

(3) The subfactors listed below are equal to one another in importance and will be used to evaluate past performance:

(i) **Quality of Product and Service.** Assessment of the offeror's ability to conform to contract requirements, specifications, and standards of good workmanship.

(ii) **Schedule.** Assessment of the offeror's ability to meet delivery schedules, to respond to administrative issues in a timely manner, and to complete a contract.

(iii) **Business Relations.** Assessment of the offeror's commitment to maintaining an acceptable level of performance, customer satisfaction, and meeting small business, veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business participation goals, as applicable. This includes the offeror's history of reasonable and cooperative behavior, participation in problem identification, and corrective action measures.

(e) **EVALUATION OF SOCIOECONOMIC COMMITMENT.**

(1) The socioeconomic proposal provided by the offeror will be evaluated as follows:

- (i) As a separate factor, for the offeror's proposal under this solicitation; and
- (ii) As an element of the Business Relations subfactor of the Past Performance Factor.

(2) The Government will evaluate, based on preestablished standards, the extent to which an offeror proposes to use small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses. An offeror that demonstrates greater commitment to partnering and subcontracting with small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses will receive more favorable ratings. An offeror with higher percentage, complexity level, and variety of participation by small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses generally will receive more favorable ratings. An offeror's current efforts to develop additional opportunities for small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses will also be considered.

(3) The offeror's proposal for socioeconomic support will be made a part of any resultant contract for use in determining how well the Contractor adheres to its socioeconomic plan. This plan will be monitored by the Small Business Office (DESC-DU) of the Defense Energy

AMENDMENT 0002

Support Center as a means of assisting the Contracting Officer in determining how well the Contractor performs. This determination may be used in future best value decisions.

(f) **BEST VALUE DETERMINATION.** After the past performance ratings are determined, a series of paired comparisons will be made between competing offerors for each line item. In making these paired comparisons, the Government will determine the difference in price, past performance, and socioeconomic commitment. If, in any paired comparison, one offeror is superior in past performance and offers the lowest price, then the Government will consider that offeror to represent the better value. But, if the offeror with the superior past performance offers a higher price than the competing offeror, the Government will decide whether the superior performance merits the higher price. If so, then the Government will consider the offeror with superior past performance at a higher price to represent the best value. Otherwise, the Government will consider the competing offeror with the lower price and lower past performance rating to represent a better value. If, in any paired comparison, the offerors are equal in the elements of price and past performance, then the offeror with the superior socioeconomic evaluation will represent the better value. The Government will continue to make paired comparisons in this manner until it has identified the offeror that represents the best value based on price, past performance, and socioeconomic commitment. In the event of a tie among all factors and subfactors between two or more offerors considered to represent the best value, the final award decision shall be made by a drawing by lot limited to those offerors. The drawing shall be witnessed by at least three persons, with the names and addresses of the witnesses and supervising official documented in the contract file.
