The purpose of this amendment is to incorporate the following changes into subject solicitation:

1. Delete Section C.6 entitled “Access to the Utility System,” in its entirety and replace with a new “Section C.6” entitled “Right of Access to the Utility System” with the following paragraphs:

C.6 Access to the Utility System

C.6.1 Access

The Contractor shall have reasonable access to the Installation (Premises) to accomplish its duties and responsibilities under the Contract. Such access is subject to the general supervision and control of the Installation’s commander and his duly authorized representatives to provide a generic statement of the contractor’s rights.

In accepting the rights, privileges, and obligations established hereunder, the Contractor recognizes that the Installation serves the national defense and that the Government will not permit the operation, construction, installation, repair, and maintenance of a utility system and the provision of utility services to interfere with the Installation's military mission. This Installation is an operating military installation that is closed to the public and is subject to the provisions of the Internal Security Act of 1950, 50 U.S.C. § 797, and of 18 U.S.C. § 1382. Access to the Installation is subject to the control of its Installation Commander and is governed by such regulations and orders as have been lawfully promulgated or approved by the Secretary of Defense or by any designated military commander. Any access granted to the Contractor, its officers, employees, contractors of any tier, agents, and invitees is subject to such regulations and orders. This Right of Access is subject to all regulations and orders currently promulgated or which may be promulgated by lawful authority as well as all other conditions contained herein. Such regulations and orders may, by way of example and not by way of limitation, include restrictions on who may enter, how many may enter at any one time, when they may enter, and what areas of the Installation they may visit, as well as requirements for background investigations, including those for security clearances, of those entering. The Contractor is responsible

for the actions of its officers, employees, contractors of any tier, agents, and invitees while on the Installation and acting under this Right-of-Access.

In the event all or any portion of the Premises shall be needed by the United States or in the event the presence of the Contractor's property shall be considered detrimental to governmental activities, the Contractor shall, from time-to-time and upon notice to do so, and as often as so notified, remove or relocate its property to such other location or locations on the Premises as may be required by the contracting officer or authorized representative, and in the event the Contractor's property shall not be removed or relocated within ninety (90) days after any aforesaid notice, the Government may cause the same to be done. Any removal or relocation of the Contractor's property at the direction of the Government under this Condition 4.3 shall be at the Government's expense.

The Contractor further recognizes that the operation, construction, installation, repair, and maintenance of the utility system on the Installation may be subject to requirements and approvals not ordinarily imposed by civilian authorities, including, but not limited to, compliance with the National Environmental Policy Act of 1969, as implemented. The Contractor agrees to abide by all applicable regulations

C.6.2 Condition of the Premises

The Premises are granted in an "as is, where is" condition without any warranty, representation, or obligation on the part of the Government to make any alterations, repairs, improvements, or corrections to defects whether patent or latent. At such times and for such part of the Premises as said officer may determine, the Government and the Contractor, hereinafter referred to as the "Parties", will sign a Physical Condition Report to reflect the condition of the Premises prior to the Premises being disturbed by the activities of the Contractor. Such Report shall be used to indicate the condition of the Premises prior to their being disturbed in order to compare them with the Premises subsequent to the activities of the Contractor to ensure The Contractor has returned the Premises to the condition required by this Right-of-Access.

C.6.3 Alteration of Premises

If the Contractor's property located on the Premises intrudes into airspace subject to regulation under the Federal Aviation Regulations or their Air Force counterparts, such property shall be operated, constructed, installed, repaired, and maintained in conformance with such regulations.

C.6.4 Access for Restoration

Nothing in this Right-of-Access shall be interpreted as interfering with or otherwise limiting the right of the Government and its duly authorized officers, employees, contractors of any tier, agents, and invitees to enter upon the Premises for any lawful purpose.

C.6.5 Other Grants of Access

This Right-of-Access is subject to all outstanding easements, rights-of-way, leases, permits, licenses, and uses for any purpose with respect to the Premises. The Government shall have the right to grant additional easements, rights-of-way, leases, permits, and licenses, and make additional uses with respect to the Premises. However, any such additional easements, rights-of-way, leases, permits, licenses, or uses shall not be inconsistent with the Contractor's use of the Premises under this Right-of-Access. Any interference with the use of or damage to property under control of the Department of the Air Force incident to the exercise of the rights and privileges herein granted shall be promptly corrected by the Contractor to the satisfaction of the Installation Commander. If the Contractor fails to promptly repair or replace any such property after being notified to do so by the Installation Commander, said officer may repair or replace such property and Contractor shall be liable for the costs of such repair or replacement.

C.6.6 Restoration of Premises

On or before the date of expiration or termination of this Contract, the Contractor shall vacate the Premises and restore the Premises to a condition satisfactory to the Installation Commander without additional expense to the United States Government. Such restoration shall include, if applicable, removal of contamination caused by the Contractor. The Government may, at its sole discretion, consent to the Contractor abandoning all or part of its utility system on the Installation, but such consent must be unequivocal and in writing: Provided, however, that any buried conduits, pipes, ductbanks, tubes,

or wires, the nature, location, and depth of which are known to the Contractor and shown on the Contractor's records and which neither contain an environmental contaminant nor pose an environmental or safety hazard, may be abandoned with the Government's consent, which consent shall not be unreasonably withheld.

2. All other terms and conditions shall remain unchanged and in full force and effect.
