L2.05-5 INSTRUCTIONS TO OFFERORS – COMMERCIAL ITEMS (PC&S) (DESC JAN 2004)

- (a) **AMENDMENTS TO SOLICITATIONS.** If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).
- (b) **MASTER SOLICITATION.**
- (1) This solicitation is [], is not [] a master solicitation for the **Guam/Tinian PC&S, 1.8R** Purchase Program. If this is a master solicitation, it will contain the terms and conditions for this solicitation and for future supplemental solicitations in the program year. Each supplemental solicitation will incorporate by reference the same terms and conditions as this master solicitation, except as specifically stated in that supplemental solicitation. The identical terms and conditions will not be repeated. (Therefore, if this is a master solicitation, it should be retained for the duration of the program.) However, each supplemental solicitation will be considered a separate and individual solicitation.
- (2) The initial opening/closing date for the solicitation is **November 05, 2004**. Subsequent openings/closings for future requirements will be on an as-required basis starting with the first supplemental solicitation and thereafter until the end of the program ordering period as stated in the solicitation.
- (c) **SUBMISSION, MODIFICATION, REVISION, AND WITHDRAWAL OF OFFERS.**
- (1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, signed and dated offers and modifications thereto shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror at or before the exact time specified in this solicitation. Offerors using commercial carriers should ensure that the offer is marked on the outermost wrapper with the information in subdivisions (i) and (ii) above. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation.
- (2) The first page of the offer must show--
- (i) The solicitation number;
 - (ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);
 - (iii) Include name, title, and signature of person authorized to sign the offer. Offers signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.
 - (iv) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
 - (v) Terms of any express warranty;
 - (vi) Price and any discount terms; and
 - (vii) A completed copy of the representations and certifications in the Offeror Submission Package.
- (3) **IFBs ONLY.**
- (i) Facsimile bids _____ authorized for this solicitation.
 - (ii) **EVALUATION - Net Payment Terms.** Offers under an IFB that include net payment terms less than 30 days will be determined nonresponsive.
 - (iii) Prices shall be offered on an economic price adjustment basis only. Firm prices will be nonresponsive and will be rejected.
 - (iv) The prices set forth on the Price Data Sheet in the block marked "Bid Price" will be a per gallon price. These prices shall not exceed six digits to the right of the decimal (e.g., \$1.030454).
- (4) **RFPs ONLY.**
- (i) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or that reject the terms and conditions of the solicitation may be excluded from consideration.
 - (ii) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (d) **NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM (NAICS) CODE AND SMALL BUSINESS SIZE STANDARD.** The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern that submits an offer in its own name, but which proposes to furnish an item that it did not itself manufacture, is 500 employees.
- (e) **PERIOD FOR ACCEPTANCE OF OFFERS.** The offeror agrees to hold the prices in its offer firm for 120 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (f) **PRODUCT SAMPLES.** When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.
- (g) **MULTIPLE OFFERS.** Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.
- (h) **LATE SUBMISSIONS, MODIFICATIONS, REVISIONS, AND WITHDRAWALS OF OFFERS.**

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is **"late"** and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(i) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(j) Proposals submitted in response to this solicitation shall be in English and in U.S. dollars unless otherwise permitted by the solicitation.

(k) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(l) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(m) CONTRACT AWARD.

(1) RFPs ONLY (not applicable to IFBs).

(i) While the Government intends to evaluate offers and award a contract without discussions, it reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

(ii) If the Contracting Officer determines that negotiations are necessary, the Government will then evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(iii) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(2) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose offer(s) conforming to the solicitation will be most advantageous to the Government, cost or price and other factors (including subfactors) specified elsewhere in this solicitation, considered.

(3) The Government may reject any or all offers if such action is in the Government's interest.

(4) The Government may waive informalities and minor irregularities in offers received.

(5) The Government may accept any item or group of items of a proposal, unless the offeror qualifies the proposal by specific limitations. Unless otherwise provided in the Schedule, proposals may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(6) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time specified in the offer shall result in a binding contract without further action by either party.

(7) The Government may disclose the following information in postaward debriefings to other offerors:

(i) The overall evaluated cost or price and technical rating of the successful offeror;

(ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;

- (iii) A summary of the rationale for award; and
- (iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

Offerors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov> or by calling **1-888-227-2423** or **269-961-5757**.

- (3) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.
- (4) A summary of the rationale for award.
- (5) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.
- (6) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

(FAR 52.212-1, **tailored**/DESC 52.212-9F20)

II.03-3 CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS (PC&S) (NON-PORTS INTERNET APPLICATION) (DESC JUN 2004)

(a) INSPECTION/ACCEPTANCE.

(1) The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its post-acceptance rights (i) within a reasonable time after the defect was discovered or should have been discovered, and (ii) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(2) Also see the NONCONFORMING SUPPLIES AND SERVICES clause in the Addendum.

(b) ASSIGNMENT. The Contractor or its assignee may assign its rights to receive payment due, as a result of performance of this contract, to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes a payment (e.g., use of the Government-wide commercial purchase card), the Contractor may not assign its right to receive payment under this contract.

(c) CHANGES. Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) DISPUTES. This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613). Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, DISPUTES, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) DEFINITIONS. The clause at FAR 52.202-1, DEFINITIONS, is incorporated herein by reference.

(f) EXCUSABLE DELAYS. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) INVOICE. The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include--

- (1) Name and address of the Contractor;
- (2) Invoice date and number;
- (3) Contract number, contract line item number, and, if applicable, the order number;
- (4) Description, quantity, unit of measure, unit price, and extended price of the item delivered;
- (5) Shipping number and date of shipment including the bill of lading number and weight of shipment if shipped on Government

bill of lading;

- (6) Terms of any prompt payment discount offered;
- (7) Name and address of official to whom payment is to be sent; and
- (8) Name, title, and phone number of person to be notified in event of defective invoice, and

M72.02 EVALUATION FACTORS FOR BEST OVERALL VALUE (DOMESTIC) (DESC JUL 2003)

- (a) **APPLICATION.** This provision applies only after all price evaluation factors have been considered.
- (b) **BASIS OF AWARD.**

(1) The Government will award contracts to the responsible offeror(s) whose offer conforms to the solicitation and that represents the best overall value. The Government will determine best overall value on the basis of an integrated assessment of the following evaluation factors, which are in descending order of importance:

- (i) Price;
- (ii) Past Performance; and
- (iii) Socioeconomic Commitment.

The relative influence of price, past performance, and socioeconomic commitment will depend on the differences among the competing offerors, and not on any predetermined, fixed, weighted arrangements or trade-off formula. Price is more important than past performance, and price combined with past performance is significantly more important than socioeconomic commitment. All evaluation factors other than price (past performance and socioeconomic commitment), when combined, are approximately equal to price in importance.

(2) In determining best overall value, the Government will evaluate and rate each offeror's past performance based on preestablished standards. The offer(s) selected as best value will represent the best tradeoff to the Government among price, past performance, and socioeconomic commitment. The Government may make award to other than the lowest priced offeror; however, the Government will not pay a premium that it considers disproportionate to the benefits associated with the offeror's record of past performance and socioeconomic commitment.

(c) **ACCEPTABILITY OF OFFERS.** An offer will be considered acceptable if, and only if, an offeror agrees to the terms and conditions in the solicitation, or if the Government has accepted any exceptions submitted with the offer.

- (d) **EVALUATION OF PAST PERFORMANCE.**

(1) The Government will evaluate, based on preestablished standards, the quality of the offeror's past performance. This may include any aspect of past performance related to this solicitation. The assessment of the offeror's past performance will be used as a means of evaluating the offeror's ability to meet the solicitation requirements. A record of poor past performance may be considered an indication that the offeror has failed to conform to contract requirements and/or to standards of good workmanship; to adhere to contract schedules, including the administrative aspects of performance; to provide reasonable and cooperative behavior and

commitment to customer satisfaction; and/or to display a business-like concern for the interests of the customer. Offerors shall be afforded an opportunity to address unfavorable reports of past performance, and the offeror's response, or lack thereof, will be taken into consideration. Recent contracts may be examined to ensure that corrective action measures have been put in place to prevent the recurrence of past performance problems. Prompt actions taken to correct performance problems may be considered a reflection of

management concern for customer satisfaction; however, such action may not mitigate all negative performance trends. Additionally, a record of satisfactory or exceptional past performance will not result in a favorable assessment of an otherwise unacceptable proposal. Offerors lacking relevant past performance history or for which past performance information is not available will not be evaluated favorably or unfavorably on past performance.

(2) The Government reserves the right to consider any information available to it in evaluating an offeror's past performance. This includes information obtained from the offeror's references, past and present customers, subcontractors, and any other sources that may have useful information. However, the Government reserves the right not to contact all of the references listed by the offeror. The Government also reserves the right to assess the offeror's past performance based solely on the offeror's performance under an existing DESC contract or a previous DESC contract for work similar to that required by the solicitation.

(3) The subfactors listed below are equal to one another in importance and will be used to evaluate past performance:

(i) **Quality of Product and Service.** Assessment of the offeror's ability to conform to contract requirements, specifications, and standards of good workmanship.

(ii) **Schedule.** Assessment of the offeror's ability to meet delivery schedules, to respond to administrative issues in a timely manner, and to complete a contract.

(iii) **Business Relations.** Assessment of the offeror's commitment to maintaining an acceptable level of performance, customer satisfaction, and meeting small business, veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business participation goals, as applicable. This includes the offeror's history of reasonable and cooperative behavior, participation in problem identification, and corrective action measures.

(e) **EVALUATION OF SOCIOECONOMIC COMMITMENT.**

(1) The socioeconomic proposal provided by the offeror will be evaluated as follows:

(i) As a separate factor, for the offeror's proposal under this solicitation; and

(ii) As an element of the Business Relations subfactor of the Past Performance Factor.

(2) The Government will evaluate, based on preestablished standards, the extent to which an offeror proposes to use small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses. An offeror that demonstrates greater commitment to partnering and subcontracting with small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses will receive more favorable ratings. An offeror with higher percentage, complexity level, and variety of participation by small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses generally will receive more favorable ratings. An offeror's current efforts to develop additional opportunities for small businesses, veteran-owned small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses will also be considered.

(3) The offeror's proposal for socioeconomic support will be made a part of any resultant contract for use in determining how well the Contractor adheres to its socioeconomic plan. This plan will be monitored by the Small Business Office (DESC-DU) of the Defense Energy Support Center as a means of assisting the Contracting Officer in determining how well the Contractor performs. This determination may be used in future best value decisions.

(f) **BEST VALUE DETERMINATION.** After the past performance ratings are determined, a series of paired comparisons will be made between competing offerors for each line item. In making these paired comparisons, the Government will determine the difference in price, past performance, and socioeconomic commitment. If, in any paired comparison, one offeror is superior in past performance and offers the lowest price, then the Government will consider that offeror to represent the better value. But, if the offeror with the superior past performance offers a higher price than the competing offeror, the Government will decide whether the superior performance merits the higher price. If so, then the Government will consider the offeror with superior past performance at a higher price to represent the best value. Otherwise, the Government will consider the competing offeror with the lower price and lower past performance rating to represent a better value. If, in any paired comparison, the offerors are equal in the elements of price and past performance, then the offeror with the superior socioeconomic evaluation will represent the better value. The Government will continue to make paired comparisons in this manner until it has identified the offeror that represents the best value based on price, past performance, and socioeconomic commitment. In the event of a tie among all factors and subfactors between two or more offerors considered to represent the best value, the final award decision shall be made by a drawing by lot limited to those offerors. The drawing shall be witnessed by at least three persons, with the names and addresses of the witnesses and supervising official documented in the contract file.

ADDENDUM #2 – POSTAWARD CONTRACT CLAUSES**B19.01-2 ECONOMIC PRICE ADJUSTMENT - MARKET PRICE (PC&S) (KOREA/GUAM/JAPAN)
(DESC JUL 1999)****(a) WARRANTIES.** The Contractor warrants that--

(1) The unit prices set forth in the Schedule do not include allowances for any portion of the contingency covered by this clause; and

(2) The prices to be invoiced hereunder shall be computed in accordance with the provisions of this clause.

(b) DEFINITIONS. As used throughout this clause, the term--

(1) **Base unit price** means the unit price set forth opposite the item in Section B of the Schedule.

(2) **Market price** means a price determined by an independent trade association, governmental body, or other third party and reported or made available in a consistent manner in a publication, electronic data base, or other form. This price may be either a single market price or a combination of market prices for price adjustment for individual items by product, market area, and publication as specified in the Table in (g) below. For purposes of this procurement, the market price is the average of the prices published in Platt's Oilgram Price Report. The applicable market price is identified by product following the Table in (g) below.

(i) **Base market price** means the price as shown in column IV of the Table in (g) below and is the market price from which economic price adjustments are calculated pursuant to this clause.

(ii) **Adjusting market price** means the market price in effect on the date of delivery and that will be used to determine the change in market price as defined in (c)(1) below.

(3) **Date of delivery** is defined as follows:

(i) **FOR F.O.B. DESTINATION TRUCK DELIVERIES.** The date product is received, on a truck-by-truck basis.

(ii) **FOR ALL OTHER TYPES OF DELIVERIES.** The date and time product commences moving past the specified f.o.b. point.

(c) ADJUSTMENTS.

(1) Subject to the provisions of this clause, the prices payable hereunder shall be determined by adding to the base unit price the same number of cents, or fraction thereof, that the adjusting market price increases or decreases, per like unit of measure, subsequent to the date on which the base market price is established (see column IV of the Table). The prices payable shall be issued through semimonthly contract notifications effective the first and third Monday of each month.

(2) Contract price adjustments shall be provided via notification through contract modifications and/or posting to the DESC web page under the heading **Doing Business with DESC.**

(3) All arithmetical calculations, including the final adjusted unit price, shall be rounded to four decimal places.

(4) **FAILURE TO DELIVER.** Notwithstanding any other provisions of this clause, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence, within the meaning of paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract, in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(5) **UPWARD CEILING ON ECONOMIC PRICE ADJUSTMENT.** The Contractor agrees that the total increase in any contract unit price, pursuant to these economic price adjustment provisions, shall not exceed **60 percent** of the base unit price in any applicable program year (whether a single year or a multiyear program), except as provided hereafter.

(i) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with an appropriate explanation and documentation as required by the Contracting Officer.

(ii) If an actual increase in the market price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(6) **REVISION OF MARKET PRICE INDICATOR.** In the event--

(i) Any applicable market price indicator is discontinued or its method of derivation is altered substantially; or

(ii) The Contracting Officer determines that the market price indicator consistently and substantially fails to reflect market conditions,--

the parties shall mutually agree upon an appropriate and comparable substitute for determining the price adjustments hereunder. The contract shall be modified to reflect such substitute effective on the date the indicator was discontinued, altered, or began to consistently and substantially fail to reflect market conditions. If the parties fail to agree on an appropriate substitute, the matter shall

be resolved in accordance with paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract.

(d) **CONVERSION FACTORS.** If this clause requires quantity conversion for economic price adjustment purposes, the conversion factors for applicable products, as specified in the CONVERSION FACTORS provision, apply unless otherwise specified in the Schedule.

(e) **EXAMINATION OF RECORDS.** The Contractor agrees that the Contracting Officer or designated representatives shall have the right to examine the Contractor's books, records, documents, and other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause.

(f) **FINAL INVOICE.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this clause.

In part, these regulations mandate that Phase II complex model reformulated gasoline must meet three emissions performance requirements when compared to the baseline gasoline marketed by a refiner in 1990: a 27 percent reduction in emissions of volatile organic compounds (VOCs), a 22 percent reduction in emissions of toxic pollutants, and a 7 percent reduction in emissions of oxides of nitrogen (NOx). Further, these regulations mandate that Phase II complex model reformulated gasoline must meet three compositional requirements: 1.5 weight percent minimum oxygen; 1.3 volume percent maximum benzene; and no heavy metals (lead and manganese are examples of such metals).

(4) Blending of various compatible grades of burner oil to produce an intermediate grade is permitted, however, such blending shall be accomplished by mechanical mixing or agitation in tank, or by in-line blending, prior to loading the product into transport equipment, and the resultant product must meet all the requirements of the contract.

(5) The maximum allowable ash content for Burner Oil, Grade RF6, shall be 0.50 mass%, using ASTM D 874, Standard Test Method for Sulfated Ash from Lubricating Oils and Additives.

(g) **KEROSENE.** Product shall conform to ASTM D 3699. Classification of product is shown below.

NOTE: The IRS requires taxation of No. 1-K and No. 2-K kerosene upon removal from the terminal unless the kerosene is indelibly (cannot be removed) dyed or used for military jet fuel. These requirements, part of 26 CFR 48 - Manufacturers and Retailers Excise Taxes, were published in the July 1, 1998, Federal Register. Only undyed (taxable) No. 1-K kerosene is suitable for use in nonflued (unvented) kerosene burner appliances. No. 2-K kerosene (dyed or undyed) is unsuitable for nonflued (unvented) kerosene burner appliances.

The color test requirement is deleted if red dye has been added in compliance with IRS regulations; however, the resulting fuel/dye blend must have a red tint.

E35 NONCONFORMING SUPPLIES AND SERVICES (DESC JAN 2004)

- (a) The Government may, at its discretion, accept nonconforming supplies or services. In such cases, the Contractor must obtain a deviation or waiver from the Contracting Officer prior to acceptance.
- (b) The following procedures shall be used to request a deviation or waiver to the applicable nonconformance(s). A deviation is a request by a Contractor to deviate from the contract requirements after contract award, but prior to initial production of each product (for the duration of the contract). A waiver is a request by a Contractor to deviate from the contract requirements after initial production of each product (on a case-by-case basis or for a set period).
 - (1) Requests for deviations and waivers shall be submitted by the Contractor to the Contracting Officer with a copy to the Quality Representative (QR). Each request shall provide the following information: Contractor name; contract number; contract line item and product, if applicable; clause number, paragraph and subparagraph, as appropriate; the nature of the request; the reason for the request; the corrective action being taken by the Contractor to correct and prevent recurrence of the condition(s) causing the nonconformance; and equitable price adjustment offered over the administrative fee. In extraordinary situations, the Contractor may initially submit the request for a waiver, not a deviation, through the cognizant QR to the Contracting Officer or the Contracting Officer's Representative (COR) in the Quality Operations Division (DESC-BQ) of the Defense Energy Support Center (DESC). Extraordinary situation requests shall be submitted formally to the Contracting Officer prior to close of business of the next normal DESC workday (0800 to 1630 hours EST, Monday through Friday, Federal Holidays excluded). As used in this clause, the term extraordinary situation means the matter cannot await resolution until the next normal DESC workday. In addition, if either the Contracting Officer or the COR cannot be reached, the Duty Officer shall be contacted and provided the necessary information to forward to the proper individuals as soon as possible. The Duty Officer's telephone number is **(800) 286-7633** or **(703) 767-8420; (DSN) 427-8420**.
 - (2) If a deviation or waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the deviation or waiver being granted. If the situation dictates, a deviation or waiver may be granted without prior

agreement on price adjustment or other consideration subject to agreement by the Contractor, or its representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of the Disputes paragraph of the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause of this contract.

(3) If a deviation or waiver is granted and the nonconforming supplies are accepted, then in no event will consideration be less than \$250 to cover administrative costs, plus any additional cost of Government reinspection or retest, if necessary.

(4) If a deviation or waiver is granted modifying this contract but the supplies accepted are subsequently determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the deviation or waiver. If, however, this consideration exceeds \$500, a second contract modification shall be issued reducing the Contractor's obligation to \$500 (the administrative cost of issuing the two required modifications).

(c) When notification of nonconforming supplies is received after the supplies have been accepted, and the Government determines not to exercise its right to reject or to require correction under the INSPECTION OF SUPPLIES – FIXED-PRICE, INSPECTION AND ACCEPTANCE OF SUPPLIES (SHIPS' BUNKERS), or CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause, then in no event will consideration be less than \$250 to cover administrative costs. This \$250 fee is in addition to—

- (1) Consideration commensurate with the extent of nonconforming supplies; and
- (2) Cost of Government reinspection or retest, if necessary.

The administrative fee will apply to each claim letter issued for off-specification product delivered to an activity.

(d) Contractors shall be held responsible for payment of any fines or penalties imposed on a receiving activity by an environmental enforcement agency, resulting from the delivery of nonconforming supplies under a DESC contract.

(e) Repeated tender of nonconforming supplies or services, including those with only minor defects, will be discouraged by appropriate actions, including, but not limited to rejecting the supplies or services whenever feasible and documenting the Contractor's performance records.

(DESC 52.246-9FQ5)

E37 SOURCE RESTRICTION AND SOURCE INSPECTION (PC&S) (DESC FEB 2004)

(a) SOURCE RESTRICTION.

(1) If the Contractor delivers any product that is determined to be off-specification, the Contracting Officer (CO) shall thereafter have the right, upon giving written notice, to require the Contractor to designate a single source of supply for each destination set forth in the contract. Upon receiving such notice, the Contractor shall have 10 days to respond, in writing, after which time the source restriction will become effective.

(2) In addition to the name of a single source of supply, the Contractor must provide the address of the terminal or loading point to be used in drawing the requirements for each item in the contract.

(3) The Contractor may change suppliers only after requesting and receiving the express written approval of the CO.

(b) SOURCE INSPECTION.

(1) If serious quality problems arise or if a quality problem recurs, for which the Contractor was supposed to have taken corrective action, the CO shall, in addition to source restriction, have the right to change the inspection point from destination to origin (source) by advising the Contractor in writing. Source inspection will become effective 10 days after written notice has been received by the Contractor.

(2) At the time the change becomes effective—

- (i) All appropriate clauses relating to origin inspection shall be incorporated into the contract for the item(s) involved;
- (ii) Source restriction, if not already in force, will be invoked for all items involved, in accordance with (a) above; and
- (iii) The cognizant DESC field office, upon receiving written notification by the CO, will become the office responsible for inspection at the origin loading or filling point for providing necessary field assistance.

(c) Failure to provide the information requested or to take prompt corrective action may result in the item(s) and/or contract being terminated for default.

(DESC 52.246-9F55)

E40 MATERIAL INSPECTION AND RECEIVING REPORT (MAR 2003)

(a) At the time of each delivery of supplies or services under this contract, the Contractor shall prepare and furnish to the Government a material inspection and receiving report in the manner and to the extent required by Appendix F, Material Inspection and Receiving Report, of the Defense FAR Supplement.

(b) Contractor submission of the material inspection and receiving information required by Appendix F of the Defense FAR Supplement by using the Wide Area WorkFlow-Receipt and Acceptance (WAWF-RA) electronic form (see paragraph (b)(1) of the clause at 252.232-7003) fulfills the requirement for a material inspection and receiving report (DD Form 250).

F1.01-1 DELIVERY CONDITIONS FOR TRANSPORT TRUCKS, TRUCKS AND TRAILERS, AND TANK WAGONS (DESC APR 1997)

IMPORTANT NOTE on EPA TESTING OF UNDERGROUND TANKS. If the "volumetric" method is used for annual EPA testing of underground tanks, the "topping off" of tanks for this test is outside the scope of DESC requirements contracts.

(a) **F.O.B. ORIGIN.** On items calling for delivery at Contractor's refinery, terminal, or bulk plant f.o.b. transport truck, truck and trailer, or tank wagon—

(1) Supplies ordered hereunder shall be delivered, at Contractor's expense, into equipment specified in the Schedule.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

(b) **F.O.B. DESTINATION.** On items calling for delivery f.o.b. destination by means of transport truck, truck and trailer, or tank wagon--

(1) The Contractor shall not be required to deliver by transport truck or truck and trailer a quantity less than a full load nor into more than one storage tank, with the following exceptions:

(i) An order placed under an item of this contract calling for delivery by transport truck of motor gasoline, fuel oil, diesel fuel, or kerosene, or, if this procurement is for Central America only, jet fuel, may require delivery of a quantity as low as 5,200 gallons whenever the activity is restricted either by a tank capacity or by a directive from receiving a larger quantity; and

(ii) Where the Schedule provides for multiple drop delivery, the Contractor may be required to deliver into more than one storage tank. Where truck and trailer is the method of delivery specified, the Contractor may, at its option, make delivery by transport truck. In the case of deliveries in Alaska, where truck and trailer or transport truck is the method of delivery specified, the Contractor may, at its option, make delivery by tank wagon.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

(3) The Contractor shall not be required to deliver by tank wagon a quantity of less than 575 liters (or 150 gallons) but, at the Government's option, may be required to deliver into more than one storage tank.

(4) When delivery is made by tank wagon, such wagon shall be equipped with pump, meter, and a minimum of 100 feet (30 meters) of hose. Where delivery is made by transport truck or truck and trailer, such delivery equipment shall be equipped with a minimum of 15 feet of hose.

(5) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility, the Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

(6) Unless otherwise provided in the Schedule, free time for unloading trucks, transport trucks, or trucks and trailers shall be unlimited.

(7) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility—

(i) The Contractor shall provide properly maintained delivery equipment and properly trained delivery personnel to reasonably assure that delivery can be made without damage to vegetation and asphalt pavement adjacent to storage facilities being filled. The Contractor's delivery personnel who have not exercised reasonable care and delivery equipment that is poorly maintained may be refused entrance to the installation by the installation Commander.

(ii) The Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

(DESC 52.247-9FH5)

F1.09-1 ANNOTATION OF SHIPPING DOCUMENTS (DESC AUG 1999)

(a) **Trucks with temperature-compensating meters.** For deliveries when temperature compensating meters are used to determine quantity, the shipping document (truck's metered ticket) shall be annotated with the API gravity (or density), net quantity, and a statement that a temperature compensating meter was used to determine quantity.

(b) **Trucks without temperature-compensating meters.** For deliveries when quantity is determined without volume correction to 60°F (15°C) as permitted in the DETERMINATION OF QUANTITY clause, paragraph (b), the shipping document (truck's metered ticket) shall be annotated with the API gravity (or density), gross quantity, and a statement that volume correction was not required.

(c) **For all other deliveries, including those using a loading rack metered ticket as the shipping document.** The shipping document shall be annotated with the gross and net gallons (or gross and net liters), the observed and corrected API gravity (or density), and the temperature at which the product was measured.

(DESC 52.211-9FB1)

F1.09-2 DETERMINATION OF QUANTITY (PC&S) (DESC MAY 2000)

(a) **QUANTITY.** The quantity of supplies furnished under this contract shall be determined as follows:

(1) **DELIVERIES INTO OR BY TANKER/BARGE.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the invoice quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Shore tank measurements; or
- (b) Calibrated meter.

(B) The Government will have the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.**

(A) On items requiring delivery on an f.o.b. destination basis, the invoice quantity shall be determined on the basis of--

- (a) Calibrated meter if the delivery conveyance is so equipped; otherwise--
- (b) Gauging the receiving shore tank; or
- (c) Gauging the tanker/barge before and after delivery.

(B) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(2) **DELIVERIES INTO OR BY TANK TRUCK/TRUCK AND TRAILER/TANK WAGON.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the invoice quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Certified capacity tables of the conveyance loaded;
- (b) Calibrated meter; or
- (c) Weight, using calibrated scales.

(B) The Government has the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.** On items requiring delivery on an f.o.b. destination basis, the invoice quantity shall be determined as follows:

(A) If the narrative requires a tank truck with meter, a truck and trailer with meter, or tank wagon (which is always equipped with a meter), that meter shall be used to determine invoice quantity at time of delivery. The quantity shall be read directly from the meter; otherwise--

(B) The Government may elect to determine invoice quantity at the receiving activity at the time of delivery on the basis of--

- (a) Weight, using calibrated scales; or
- (b) A calibrated meter on the receiving tank system.

(C) If the Government does not require method (a)(2)(ii)(A) above and does not elect to use method (a)(2)(ii)(B) above, the Contractor may then elect to provide equipment that enables the Government and the Contractor to determine invoice quantity at destination at the time of delivery by one of the following methods:

- (a) A calibrated meter on the delivery conveyance. The quantity shall be read directly from the meter; or
- (b) Gauging the delivery conveyance. The certified capacity tables must be made available at the time of delivery.

This method may not be used in areas where environmental restrictions prohibit the opening of dome hatches; or

(c) Certified tank calibration markers. Certified tank calibration markers will not be accepted unless the conveyance is full to the marker and the entire quantity is off-loaded at the receiving activity. This method may not be used for deliveries to Army activities or in areas where environmental restrictions prohibit the opening of dome hatches.

(d) Provide the receiving activity with the net quantity determined at the loading point by a calibrated loading rack meter or calibrated scales. This quantity must be mechanically imprinted on the loading rack meter ticket that is generated by the loading rack meter or scales.

(D) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(iii) **WATER BOTTOMS.**

- (A) Every delivery must be free of all water bottoms prior to discharge; and
- (B) The Contractor is responsible for their removal and disposal.

(b) **VOLUME CORRECTION TO STANDARD TEMPERATURE.** To convert gross measured quantities to net quantities of gallons at 60°F (or liters at 15°C), use Volume Correction Factors and the API gravity (or density at 15°F) (see (c)(1) below). Volume correction to a standard temperature of 60°F (or liters at 15°C) is required for--

- (1) All product volumes measured in storage (receiving) tanks, tankers, and barges;
- (2) All product volumes measured by meters on the (receiving) tank system;
- (3) All product volumes determined by weight using a calibrated scale;
- (4) All product volumes determined by loading rack meter;

(5) All product volumes of residual fuels measured in tank trucks or truck and trailers. For this purpose, residual fuels are any products with a viscosity equal to or greater than a regular (not light) No. 4 Fuel Oil (ASTM D 396); and

(6) All other product volumes measured in tank trucks or truck and trailers that are in excess of 5,000 gallons except for deliveries where the meter on the delivery conveyance is used to determine quantity. If the meter on the delivery conveyance is used to determine invoice quantity, volume correction shall not be performed unless the meter is equipped to volume correct automatically. The invoice quantity shall be determined directly from the meter reading.

(c) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards (MPMS). Outside the United States, other technically equivalent national or international standards may be used. **Certified capacity tables** shall mean capacity tables prepared by an independent inspector or any independent surveyor. In addition, the following specific standards will be used as applicable:

(1) **API MPMS Chapter 11.1, Volume Correction Factors** (API 2540/ASTM D 1250/IP 200/ISO 91-1). Either the printed version or the computer subroutine versions of the standard may be used. In case of disputes, the computer subroutine will be the referee method.

(i) For all fuels and fuel oils, Volume II, Tables 5B and 6B (or Volume VIII, Tables 53B and 54B), shall be used to determine the volume correction factor.

(ii) Volume XII, Table 52 shall be used to convert cubic meters at 15°C to barrels at 60°F, except when this method is restricted by foreign law. Convert liters at 15°C to cubic meters at 15°C by dividing by 1,000. Convert gallons at 60°F to barrels at 60°F by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.

(iii) If the original measurement is by weight and quantity is required by U.S. gallons, then--

(A) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at 60°F. Convert kilograms to metric tons by dividing by 1,000.

(B) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60°F.

(2) **API MPMS Chapter 4, Proving Systems.** All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 6 months, whichever is more frequent.

(DESC 52.211-9FA5)

F3.03 NOTIFICATION OF CHANGE IN TRANSPORTATION COMPANY (DOMESTIC PC&S) (DESC JUN 1997)

(a) In the performance of this contract, the Contractor agrees not to utilize transportation companies that have been debarred or suspended, are ineligible for receipt of contracts with Government agencies, are in receipt of a notice of proposed debarment or ineligibility from any Government agency, or are otherwise ineligible under Federal programs. Substitution of a new transportation company is subject to review by the Contracting Officer for use under this contract.

(b) If the Contractor changes transporters after award, the Contractor shall provide the Contracting Officer with the following information on alternative or new transportation company(ies) being utilized in the transportation of supplies under this contract.

Name, Address, and Phone Number
of Transportation Company

State(s) in which transporter
is authorized to operate

(DESC 52.247-9FJ5)

F4 DELIVERY AND ORDERING PERIODS (DESC JUN 2002)

(1) Ordering period begins: Date of Award and ends: 31 December 2007

(2) Delivery period begins: 48 hours after Date of Award and ends: 30 days after end of ordering period.

(b) Notwithstanding the foregoing, deliveries prior to the delivery period, made at the option of the Contractor and pursuant to an order by the Government, shall be deemed to have been made under this contract at the applicable contract price(s).

(DESC 52.242-9F75)

G3 INVOICE NUMBERING REQUIREMENTS (DESC AUG 1998)

(DESC 52.211-9FH5)

G3.01 PAYMENT DUE DATE (DESC OCT 1988)

When payment due date falls on a Saturday or Sunday, or on a United States Official Federal holiday, payment will be due and payable on the following workday.

(DESC 52.232-9F45)

G150.03-1 PAPERLESS ORDERING AND RECEIPT TRANSACTION SCREENS (PORTS) INTERNET APPLICATION (DESC DEC 2001)

APPLICABLE TO DoD ACTIVITIES ONLY.

(a) **CONTRACTOR PASSWORD.** The Contractor will furnish an email distribution list to the DESC Contracting Officer providing name(s), email address(es), phone and facsimile number(s) for all those individuals that may need to receive email notification of orders. The DESC Contracting Officer will furnish the Contractor with a password. Supplementing the "user name" (bidder code), the Contractor shall use this password to access contract-specific web pages and the Paperless Ordering and Receipt Transaction Screens (PORTS) Internet application. This includes access to electronically signed written orders (SF 1449), as described in (b) below. The Contractor shall also use the password to access PORTS for transmitting receipt documents to the Activity and for transmitting invoices to the payment office, as identified in (d) below.

(b) PREPARATION AND TRANSMISSION OF ORDERS AND CALLS AGAINST ORDERS.

(1) The Government may issue an order for a specific delivery or a series of deliveries (e.g., several deliveries during a week). The Government may also elect to issue an order covering a longer period (including monthly orders) and make periodic calls against these orders designating specific delivery dates, times, and quantities.

(2) Orders, and calls against orders, may be issued orally or in writing. An oral delivery order for fuel shall be considered issued by the Government when it is verbally assigned a delivery order number. For all orders, the appropriate ordering office/officer will provide the Contractor, via the PORTS Internet application, with an electronically signed written order, SF 1449, within 24 hours or one business day after issuing the oral order. (Once the Ordering Officer has completed the web page order, an email will be sent to the Contractor to provide notice that the order is available on the contract-specific web page. The order will also be submitted to the payment office.) An oral order shall provide the required advance notice to the Contractor and the following information: Order number; contract number; item number; quantity; delivery location; any applicable taxes, which should be billed as a separate item on the invoice; and the required delivery date. Regardless of the unit price cited on the written order, the office designated to make payments on the written order will pay the applicable unit price in effect under the ECONOMIC PRICE ADJUSTMENT (PC&S) clause.

(3) Calls against previously issued orders must be confirmed in writing within 24 hours or one business day via email message. The email confirmation will reference the previously issued order number and item number and designate specific delivery location, dates, and quantity to be delivered against that order.

(4) The Contractor's nonreceipt of a written or electronic confirmation of an oral order or oral call against a written or electronic order does not itself relieve the Contractor from its obligation to perform in accordance with the oral order or oral call against a written or electronic order. The Contractor should contact the DESC Contracting Officer if problems are experienced with receipt of the electronic or written confirmation.

(c) COMMERCIAL RECEIPTS.

(1) The Contractor shall provide a commercial receipt (bill of lading, metered ticket, or delivery ticket) upon completing delivery. The Government representative may date and sign the commercial receipt and will be provided with a legible copy. The following information shall be stated on the commercial receipt:

- (i) Item number;
- (ii) Order number;
- (iii) Type of fuel delivered;
- (iv) Date of the delivery into the Government's tank(s);
- (v) Delivered quantity and, if volume correction is required in accordance with the DETERMINATION OF QUANTITY (PC&S) clause, the fuel temperature and API gravity. If temperature compensating meters are used, only the API gravity and delivered quantity are recorded;

(vi) Tank identifier determined by the base; and

(vii) Any other required information specified in the narrative of the Schedule for the item.

(2) The Contractor will maintain all signed receipts as evidence of delivery and will provide them to the Government upon request, as dictated by the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS (PC&S) (PORTS INTERNET APPLICATION) clause. The records will be annotated with “**NONTAXABLE USE ONLY. PENALTY FOR TAXABLE USE**” where applicable.

(d) **PREPARATION AND TRANSMISSION OF THE MATERIAL INSPECTION AND RECEIVING REPORT (DD FORM 250)/INVOICE.** At the time of each delivery of supplies or services under this contract, the Contractor shall prepare and furnish to the Government a Material Inspection and Receiving Report in the manner and to the extent required by Appendix F of the Defense FAR Supplement, Material Inspection and Receiving Report, except as noted in this clause. The Contractor, or its designee, shall key the following information from the commercial receipt(s) into the contract-specific web pages for generation of the continuation page and the first page of the DD Form 250 document upon accessing the web screens per the instructions to be provided on the DESC homepage.

(1) On the first page of the web screen for creating a new DD Form 250, the Contractor will select the appropriate line item and order/amendment number from a pull-down list (which already depicts the associated contract number, requisition number, and mode of delivery). The Contractor must insert the shipment date reflecting the date fuel was actually delivered. On the next screen, the Contractor will enter a unique invoice number, confirm the escalated unit price (which may also be corrected if applicable) and any discount terms offered other than net 30 days, and select the appropriate method of quantity determination (either loading rack method or nonloading rack method). The loading rack method is selected if the quantity delivered is determined based on loading rack meter tickets from the terminal; the nonloading rack method is selected if quantity determination is based on any other method as specified in the DETERMINATION OF QUANTITY (PC&S) clause.

(2) On the next screen, the Contractor will enter sequentially the following information from each commercial ticket, which will be depicted in three columns on the DD Form 250 continuation page:

- (i) The commercial ticket number;
- (ii) The quantity indicated on the commercial receipt, (system will round quantity up or down), determined in accordance with the DETERMINATION OF QUANTITY clause; and
- (iii) The tank identifier determined by the Activity (such as a building number). This tank identifier is required only for auto-fill items. The total volume delivered to the Activity as input by the Contractor will automatically be entered into Block 17 of the DD Form 250 as a whole number; the required sequential shipment number under the order will automatically be entered into Block 2. If there is disagreement between the Contractor and the Government as to the quantity delivered, the DESC Contracting Officer will be promptly notified. (See the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS (PC&S) (PORTS INTERNET APPLICATION) clause.)

(3) Upon completion of the DD Form 250/invoice web screen document, the Contractor or designee will key the submission for processing, which automatically triggers two actions:

- (i) An email message to the Activity. The email message will request approval of the DD Form 250 and inform the Activity to access the web page to accomplish this by electronic signature or it will specify order number, shipment date and number, item, quantity shipped and all delivery tickets that apply.
- (ii) An electronic submission to the payment office and Contractor notification of that invoice submission. The invoice transaction must be received no later than 5:30 p.m. to be considered received that day. Invoices received after 5:30 p.m. shall be considered received the next United States Government business day.

(4) **AIR FORCE ONLY:** The Government’s Authorized Representative will either—

- (i) Verify the invoiced amount and return an email message confirming the quantity invoiced. The Contractor will receive an email message from the activity that the invoiced amount has been confirmed; OR
- (ii) Dispute the quantity being invoiced. Advise the Contractor by email of the reason (such as shipment date or quantity error). In this case, the Contractor will then submit a revised DD Form 250/invoice to the Activity (and to the payment office) via PORTS; the Contractor need only key in the data field(s) requiring correction and resubmit for processing. The DD Form 250 must be resubmitted within 24 hours or one business day of the Activity’s notification. If the Contractor disagrees with the Activity’s notification of disagreement, the Contractor may contact the DESC Contracting Officer. (See the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS (PC&S) (PORTS INTERNET APPLICATION) clause.

(iii) If any errors are discovered on the Contractor’s DD Form 250 after submission to the Activity, but before either confirmation or notification of disagreement, the Contractor will promptly correct by clicking on the “**Correct Submitted DD Form 250/invoice**” key and entering corrections of any prior errors. When submitted to the Activity for verification/confirmation, the DD Form 250/invoice document is automatically labeled with the words “**CORRECTED COPY.**” As in (d)(4)(i) and (ii) above, the Contractor is notified with automatic posting of the electronic transmission to the payment office.

(5) **OTHER DoD ONLY:** The Government’s Authorized Representative will either—

- (i) Approve or accept the DD Form 250 document by electronic signature and submit the document via the PORTS Internet application to the payment office. The Contractor will receive an email message via the Internet application that the document has been approved and submitted to the payment office; OR

(ii) Reject the DD Form 250 document, advising the Contractor by email of the reason for rejection (such as shipment date or quantity error). In this case, the Contractor will then submit a revised DD Form 250/invoice to the Activity (and to the payment office) via PORTS; the Contractor need only key in the data field(s) requiring correction. If the Contractor fails to submit a revised DD Form 250 within 24 hours or one

business day of the Activity’s rejection notification based on discrepancy in quantity or shipment date, in order to avoid potential delays in payment the Activity may proceed to change either the quantity or shipment date to that which the Activity had asserted. These changes will be forwarded to both the payment office and the Contractor. If the Contractor still disagrees with the Activity’s change(s), the Contractor may contact the DESC Contracting Officer. (See the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS (PC&S) (PORTS INTERNET APPLICATION) clause.)

(iii) If any errors are discovered on the Contractor’s DD Form 250 after submission to the Activity, but before either approval or rejection, the Contractor will promptly advise the Activity by either telephone or email in order that the document can be rejected with an accurate notation and then revised (see (d)(5)(ii) above) as soon as possible.

(iv) Upon signature of approval/acceptance on the DD Form 250 by the Government representative, any corrections to the document must be performed via the web page. The Contractor will click on the “Correct Submitted DD Form 250/Invoice” key and enter corrections of any prior errors. When submitted to the Activity for approval, the DD Form 250/invoice document is automatically labeled with the words “**CORRECTED COPY.**” As in (d)(5)(i) and (ii) above, the Contractor is notified, with automatic posting of the electronic transmission to the payment office.

(6) Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C. 3903) and Office of Management and Budget (OMB) Circular A-125, Prompt Payment.

(7) The Government will not be liable to the Contractor for any incidental or consequential damages resulting from any delay, omission, or error in the transmission or receipt of invoices under the Internet application.

(8) Electronic data transmitted by the Internet application will be admissible as evidence on the same basis as customary paper documents. The parties will be legally bound by the electronic documents.

(e) REQUIRED USE OF PORTS INTERNET APPLICATION.

(1) Use of PORTS, as described above, is required except in the cases indicated in (g) below and as identified exceptions to electronic invoicing under the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS (PC&S) (PORTS INTERNET APPLICATION) – ADDENDUM clause.

(2) In the event there is an interruption of PORTS service, fax/paper invoices may be submitted to DFAS Columbus only after the Contractor has contacted the DESC Contracting Officer and is given authorization to do so. A four-digit confirmation code will be provided by the DESC Contracting Officer and must be inserted (handwritten or typed) on each fax/paper invoice. DFAS Columbus will return any fax/paper invoice that does not contain the four-digit confirmation code. Fax/paper invoices must contain information required for a proper invoice per instructions contained in the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS (PC&S) (PORTS INTERNET APPLICATION) clause. Once the difficulties with PORTS has been resolved, the Contractor must revert to using PORTS to invoice.

(f) PAYMENT.

(1) Payment shall be made in accordance with the terms as stated in the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS (PC&S) (PORTS INTERNET APPLICATION) clause. Notwithstanding any permissible variation percentage between the ordered and delivered quantity, payment is authorized for a percentage not to exceed 120 percent of the ordered quantity.

(2) Payment terms for an invoice received via electronic PORTS submission by the payment office will be net 30 days from date of receipt of a proper invoice. See (d)(3) above. Payment terms for invoices other than by the electronic PORTS transmission will also be net 30 days from receipt of a proper invoice unless a discount is offered and accepted by the payment office.

(g) **INVOICING DETENTION AND DEMURRAGE COSTS.** Detention costs, allowable only on tank truck deliveries (not applicable to multiple drop tank truck or any tank wagon deliveries), and demurrage costs for barge/tanker deliveries will be the sole responsibility of the Activity incurring them. The Contractor will submit invoices for detention or demurrage costs directly to the Activity receiving the product. These provisions are applicable to DLA-owned/capitalized as well as non-DLA-owned/noncapitalized products. If the receiving activity is an Army activity, a copy of the detention/demurrage cost invoice must also be furnished to the following address:

A Julian date is defined as **Position one (1) is the year and the last three (3) digits are the day of the year (i.e., 1159 represents June 8, 2001).** The electronic system will automatically generate the Julian date shipment number based on the date shipped inserted by the Contractor.

(a) In the event this contract is terminated for cause, in whole or in part, the Government will incur administrative costs.

(b) The Contractor agrees to pay all administrative costs associated with a contract termination action. The minimum amount the Contractor shall pay for each termination action is \$500. This payment for administrative costs is in addition to any excess procurement costs and any other remedies or damages resulting from the termination.

(c) The term **termination action**, as used herein, means the termination for cause, including any associated procurement effort, involving--

- (1) Any single order or any group of orders terminated together;
- (2) Any item or group of items terminated together; or
- (3) The entire contract.

(DESC 52.249-9F20)

128.01 FEDERAL, STATE, AND LOCAL TAXES (DESC AUG 2003) (DEVIATION)

(a) As used in this clause--

- (1) **After-imposed tax** means any new or increased Federal, State, or local tax that the Contractor is required to pay or bear the burden of as the result of legislative, judicial, or administrative action taking effect after the contract date.
- (2) **After-relieved tax** means any amount of Federal, State, or local tax that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear the burden of, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date.
- (3) **All applicable Federal and State taxes** means all excise taxes that the taxing authority is imposing and collecting on the transactions or property covered by this contract pursuant to written ruling or regulation in effect on the contract date.
- (4) **Contract date** means the date set for bid opening or, if this is a negotiated contract or a modification, the date set for final revised prices.
- (5) **Local taxes** means taxes levied by the political subdivisions of the States, District of Columbia, or outlying areas of the United States, e.g., cities and counties.

(6) **Outlying areas** means—

- (i) **Commonwealths.** Puerto Rico and The Northern Mariana Islands;
- (ii) **Territories.** American Samoa, Guam, and The U.S. Virgin Islands; and
- (iii) **Minor outlying islands.** Baker Island; Howland Island, Jarvis Island; Johnston Atoll; Kingman Reef; Midway Islands; Navassa Island; Palmyra Atoll; and Wake Atoll.

(b) The contract price includes all applicable Federal, State, and local taxes, except as otherwise provided. (See either the FEDERAL AND STATE TAXES/FEES EXCLUDED FROM CONTRACT PRICE clause or the FEDERAL, STATE, AND LOCAL TAXES AND FEES clause.)

(c) The contract price shall be increased by the amount of any after-imposed tax if the Contractor states in writing that the contract price does not include any contingency for such tax.

(d) The contract price shall be decreased by the amount of any after-relieved tax.

(e) The contract price shall also be decreased by the amount of any tax that the Contractor is required to pay or bear the burden of, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(f) The Contractor shall promptly notify the Contracting Officer of all matters relating to any tax that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs.

(g) The Government shall, without liability, furnish evidence appropriate to establish exemption from any Federal, State, or local tax when the Contractor requests such evidence and a reasonable basis exists to sustain the exemption.

(DESC 52.229-9F15)

128.02-2 FEDERAL, STATE, AND LOCAL TAXES AND FEES (DESC OCT 2003)

(a) **FEDERAL EXCISE TAXES EXCLUDED.** Contract prices for fuel and fuels oils furnished under this contract exclude Federal Excise Taxes (FET). Contractors shall invoice applicable FET as follows:

(1) **GASOLINE/GASOHOL.** Unless an exemption applies, include the FET as a separate item on the Contractor's invoice.

(2) **AVIATION GASOLINE.** Unless an exemption applies, include the FET as a separate item on the Contractor's invoice.

NOTE: Use of aviation gasoline for military aircraft is tax-exempt.

(3) **FUEL OIL (BURNER GRADES) NUMBERS 1, 2, 4, 4 (LIGHT), 5 (LIGHT), 5 (HEAVY), AND 6.** There is no FET on fuel oils (burner grades). Lighter grades (numbers 1, 2, and 4 (light)) must be dyed. Contractors are responsible for obtaining fuel oils (burner grades numbers 1, 2, and 4 (light)) meeting Internal Revenue Service (IRS) dyeing requirements.

(4) **DIESEL AND NONAVIATION GRADE KEROSENE FUEL.**

(i) **UNDYED DIESEL AND UNDYED NONAVIATION KEROSENE FUEL.** Unless an exemption applies, include the FET as a separate item on the Contractor's invoice.

(ii) **DYED DIESEL AND DYED NONAVIATION KEROSENE FUEL.** There is no FET on dyed diesel and dyed nonaviation kerosene fuel.

(5) **JET FUEL.** Unless an exemption applies, include the FET as a separate item on the Contractor's invoice. **NOTE: Use of jet fuel for military aircraft is tax-exempt.**

Certain uses of gasoline, undyed diesel fuel, and undyed nonaviation kerosene may also be tax-exempt. Contractors authorized by the IRS to sell tax-free fuel should obtain exemption certificates for these sales and not invoice the FET. **A Contractor not permitted by IRS regulations to sell tax-free fuel must state that in its offer.**

(b) **STATE TAXES INCLUDED.** Unless an exemption applies, all contract prices **INCLUDE** State taxes. Examples of such taxes include excise, gross receipts, NORA, etc. The Contractor's invoice shall include a list of all State taxes that are included in the price, including the applicable rate.

(e) **LICENSES** Federal, State, and local licenses or other requirements necessary to establish Contractor's entitlement to do business and/or to make tax-exempt sales under this contract are the Contractor's responsibility. (DESC 52.229-9F25)

128.03-2 TAX EXEMPTION CERTIFICATES (DESC MAR 2004)

(a) **TAX EXEMPTION CERTIFICATES FOR MILITARY ACTIVITIES, INCLUDING THE NATIONAL GUARD.**

(1) The Ordering Officer will issue tax exemption certificates for Federal Excise Tax (FET), where applicable.

(2) Tax exemption certificates for the FET will not be issued for Army National Guard and Air National Guard activities. DFAS Columbus will pay the FET and apply to the Internal Revenue Service (IRS) for any applicable refund.

(3) All military activities, including the National Guard, will issue tax exemption certificates for State and local taxes and fees, where applicable. Contractors shall forward requests for tax exemption certificates covering any State or local taxes or fees to the Ordering Officer.

If the Ordering Officer fails to provide tax exemption certificates requested by the Contractor, the Contractor shall notify the DESC Contracting Officer and an exemption certificate shall be issued, if applicable. The DESC Contracting Officer may authorize payment of the tax if the Ordering Officer refuses to issue the tax exemption certificate.

(b) **FEDERAL, STATE, AND LOCAL TAX EXEMPTIONS FOR FEDERAL CIVILIAN AGENCIES.** Contractors shall forward requests for tax exemption certificates for Federal, State, and local taxes or fees to the Ordering Officer, when applicable.

(c) **GOVERNMENT OPTION TO DEDUCT TAX AND FURNISH TAX EXEMPTION CERTIFICATES.** If this contract provides that the Contractor should invoice for the FET, the supplies under contract are intended for a taxable purpose. However, where the invoice for any item includes the FET and tax exemption can be claimed, the Government may deduct the applicable tax from the order or the invoice and furnish a tax exemption certificate in lieu of paying the tax. The Ordering Officer will issue these tax exemption certificates.

186.03 DELIVERY-ORDER LIMITATIONS (PC&S) (DESC MAY 1996)

This clause is applicable only to tank truck and tank wagon deliveries.

(a) **MINIMUM ORDER.** The Contractor shall not be obligated to honor any order under this contract for less than the minimum quantity applicable to the method of delivery called for by the item(s) as specified in the DELIVERY CONDITIONS FOR TRANSPORT TRUCKS, TRUCKS AND TRAILERS, AND TANK WAGONS clause.

(b) **MAXIMUM ORDER.** Unless otherwise stated in the Schedule, the Contractor shall not be obligated to honor any order for a single item/a combination of items/a series of orders from the same ordering office, within any given 30-day period, in excess of whichever of the following is applicable:

(1) If the total estimated contract quantity is 100,000 gallons or less, the Contractor shall not be required to deliver a quantity in excess of the total estimated contract quantity of the item/all the items/all the items on all the orders;

(2) If the total estimated contract quantity is between 100,000 and 500,000 gallons, the Contractor shall not be required to deliver a quantity in excess of 50 percent of the total estimated contract quantity of the item/all the items/all the items on all the orders, or 100,000 gallons, whichever is greater; or

(3) If the total estimated contract quantity is greater than 500,000 gallons, the Contractor shall not be required to deliver a quantity in excess of 35 percent of the total estimated contract quantity of the item/all the items/all the items on all the orders, or 250,000 gallons, whichever is greater.

(c) The Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in (b) above.

(d) Notwithstanding the foregoing, the Contractor shall honor any order received that exceeds the maximum order limitations set forth above unless the Contractor verbally notifies the Ordering Officer within two workdays, followed by the return of the written orders to the

GUAM/TINIAN (POSTS, CAMPS AND STATIONS (PC&S))

ordering office, that he does not intend to make shipment of the items called for and the reasons therefor. When the Government has received this verbal notice, the Government may secure the supplies from another source.

(e) Nothing in either (b) or (c) above shall be construed to require a Contractor to furnish supplies in excess of the quantity directed to be supplied by the Department of Energy, in the event of a directed allocation, pursuant to the ALLOCATION clause.

(DESC 52.216-9FK1)

I179 ALLOCATION (DESC JUL 1995)

(a) **REDUCED SUPPLIES.** If, for any cause beyond the control and without the fault or negligence of the Contractor, the total supply of crude oil and/or refined petroleum product is reduced below the level that would have otherwise been available to the Contractor, the Contractor allocates to its regular customers its remaining available supplies of crude oil or product, then the Contractor may also allocate to the U.S. Government supplies to be delivered under this contract, PROVIDED--

(1) Prompt notice of and evidence substantiating the necessity to allocate and describing the allocation rate for all the Contractor's customers are submitted to the Contracting Officer;

(2) Allocation among the Contractor's regular customers is made on a fair and reasonable basis (except where allocation on a different basis is required by a governmental authority, agency, or instrumentality); and

(3) Reduction of the quantity of product due the Government under this contract shall not exceed the pro rata amount by which the Contractor reduces delivery to its other customers similarly situated.

(b) **ADDITIONAL SUPPLIES.** If, after the event causing the shortage of crude oil and/or refined petroleum product as described in (a) above, additional supply becomes available to the Contractor, the Contracting Officer may choose any one of the following three possible courses of action:

(1) Accept an updated pro rata reduction as outlined in (a) above;

(2) Determine that continuance of the contract with the quantities as originally stated in the Schedule is in the best interests of the Government; or

(3) Terminate the contract as permitted in (d) below.

(c) **REDUCED DELIVERIES.** If the Contractor believes that a law, regulation, or order of a foreign government requires the Contractor to deliver less than the quantity set forth in the Schedule for any location within that country, the Contractor may request allocation in accordance with (a) above. In addition to the criteria in (a) above, the Contractor's request shall cite--

(1) The law, regulation, or order, furnishing copies of the same;

(2) The authority under which it is imposed; and

(3) The nature of the Government's waiver, exception, and enforcement procedure.--

The Contracting Officer will promptly review the matter and advise the Contractor whether or not the need to allocate has been substantiated. If the law, regulation, or order requiring the Contractor to reduce deliveries ceases to be effective, the Contractor shall resume deliveries in accordance with the original Schedule.

(d) If, as a result of reduced deliveries permitted by (a), (b), or (c) above, the Contracting Officer decides that continuation of this contract is no longer in the best interests of the Government, the Government may terminate this contract or any quantity thereunder, by written notice, at no cost to the Government. However, the Government shall not be relieved of its obligation to pay for supplies actually delivered to and accepted by it.

(e) Except as otherwise stated in (b) above, any volumes omitted pursuant to (a) or (b) above shall be deleted from this contract, and the Contractor shall have no continuing obligation, so far as this contract is concerned, to make up such omitted supplies.

(f) For Posts, Camps, and Stations contracts, Department of Energy priority orders and allocation regulations will take precedence over any conflicting provisions of this clause.

(g) For Bulk Fuels contracts, the provisions contained in (a) above shall be inoperative when the Secretary of Defense makes a written determination that it is essential to the National Defense that the Defense Energy Support Center be provided contract volumes exceeding the amount of product to which it would otherwise be entitled.

(DESC 52.249-9F05)

I186 PROTECTION OF GOVERNMENT PROPERTY AND SPILL PREVENTION (DESC MAY 1978)

(a) The Contractor shall use reasonable care to avoid damaging or contaminating existing buildings, equipment, asphalt pavement, soil, or vegetation (such as trees, shrubs, and grass) on the Government installation. If the Contractor fails to use reasonable care and damages or contaminates any such buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities, he shall replace the damaged items or repair the damage at no expense to the Government and to the satisfaction of the Government. Further, if, as a result of the failure of the Contractor to comply with the requirements of this contract, Government buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities become damaged or destroyed, the Contractor shall replace or repair the damage at no expense to the Government, and to the satisfaction of the Government. Should the Contractor fail or refuse to make such repairs or replacements, the Government may have the said repairs or replacement accomplished, and the Contractor shall be liable for the cost thereof which may be deducted from the amounts which become due under this contract. Informal agreement with the Contractor upon replacement, repairs, or costs to be deducted shall first be attempted by the Installation Commander or

Ordering Officer. If disagreement persists, the matter shall be referred to the Contracting Officer. Unless approved by the Contracting Officer, no costs shall be deducted from amounts due or owing without the Contractor's consent.

(b) The Contractor shall take all measures as required by law to prevent oil spills (including, but not limited to, any spilling, leaking, pumping, pouring, emitting, emptying or dumping into or onto any land or water). In the event the Contractor spills any oil (including, but not limited to, gasoline, diesel fuel, fuel oil, or jet fuel), the Contractor shall be responsible for the containment, cleanup, and disposal of the oil spilled. Should the Contractor fail or refuse to take the appropriate containment, cleanup, and disposal actions, the Government may do so itself. The Contractor shall reimburse the Government for all expenses incurred including fines levied by Federal, State, or local Governments.

(DESC 52.223-9F10)

I190.06 MATERIAL SAFETY DATA SHEETS -- COMMERCIAL ITEMS (DESC MAR 2000)

(a) The Contractor agrees to submit to the Contracting Officer, upon request, a Material Safety Data Sheet (MSDS) that meets the requirements of 29 CFR 1910.1200(g) and the latest revision of Federal Standard No. 313 for all requested contract items. MSDSs must cite the contract number, the applicable CAGE code of the manufacturer, and, where so identified, the National Stock Number (NSN).

(b) The data on the MSDSs must be current and complete, reflecting the final composition of the product supplied. Should the description /composition of the product change in any manner from a previously submitted MSDS, the Contractor shall promptly provide a new MSDS to the Contracting Officer.

(DESC 52.223-9F06)

I209.09 EXTENSION PROVISIONS (DESC APR 2003)

(a) The DESC Contracting Officer reserves the right to unilaterally extend this contract on the same terms and conditions one or more times for a total of no more than six months. Notice of contract extension will be furnished to the Contractor 30 days prior to expiration of this contract or any extension thereof. However, nothing in this clause precludes the Contractor from agreeing to an extension of the contract if the DESC Contracting Officer fails to issue the notice within the 30 day time frame.

(b) The foregoing extension may be exercised by the DESC Contracting Officer where continued performance is required until a follow-on contract is awarded or, in the event a follow-on contract has been awarded, until a succeeding Contractor is positioned to commence performance.

(c) Extension of this contract shall be considered to have been accomplished at the time the DESC Contracting Officer provides written notification to the Contractor by facsimile or by mail.
