B1.05-2 (CONT'D)**SPECIAL NOTES****DELIVERY CONDITIONS FOR FOB DESTINATION DELIVERY ITEMS**

- a. Delivery to FOB Destination points **shall only** be made by Contractor furnished trucks with working calibrated meters, working pumps and a minimum of 15 feet of hose. Truck meters and pumps must be able to function without access to on-site electricity at delivery points. A licensed company operating within the country where trucks are registered/operated must calibrate contractor's truck meters. Contractor shall only use trucks that have been approved by the Contracting Officer or other authorized U.S. Government representative. An authorized U.S. Government representative must approve any change in delivery trucks. Contractor shall have local and international fittings and connectors. A contractor representative will verify that working calibrated meters and working pumps are on the truck designated for loading. Trucks not meeting stated criteria will be rejected. All delivery trucks must have equipment available to prevent and clean up fuel spills and leaks. Additional inspection of Contractor's delivery trucks will include the verification of 1) previously carried product (contractor may be requested to provide documentation regarding the product previously carried in the trucks to be loaded); 2) safety conditions of delivery trucks; and 3) vehicle integrity.
- b. All deliveries shall be made on the day specified in the delivery order provided the Contractor shall have received the order at least 48 hours prior to the day so specified. Deliveries must be made between the hours of 0800 - 1500 hours Monday through Saturday to the destination point annotated in the delivery order unless otherwise specified in writing by the Ordering Officer. Any change in delivery date or destination point must be authorized and approved in writing by the Ordering Officer.
- c. The Contractor shall provide a minimum of one (1) hour free time for off-loading each delivery truck. Contractor shall present delivery truck and product in such condition at destination point/receiving activity as to permit complete off-loading within the prescribed free time. Contractor trucks arriving outside the established delivery schedule in this contract or the times stated on the order may have to wait, at the contractor's expense, to off-load until the next delivery day. Upon arrival of Contractor's truck, the receiving activity shall promptly designate the delivery point into which the load is to be discharged. Notwithstanding the above required free time, the receiving activity is entitled to at least the same amount of free time allowed by the common carrier or that the Contractor normally allows its regular commercial customers. Contractor shall be paid for detention/demurrage beyond free time for delays caused by the receiving activity. The U.S. Government will not pay more in detention/demurrage rates than the actual rate charged by the common carrier or the rate the Contractor normally charges its regular commercial customers, whichever is less. Any incurred detention charges shall be submitted to the paying office using line item 8888-88. The Contractor's invoices shall clearly state the delivery point where detention/demurrage charges occurred, the number of hours charged, detention/demurrage costs and extended dollar value. All claims for detention/demurrage shall be supported with a copy of the Receiving Report (DD Form 250) clearly indicating times of arrival and departure from destination and signed by the cognizant U.S. Government representative.
- d. The Contractor shall provide properly maintained delivery equipment and properly trained delivery personnel to reasonably assure that delivery can be made without damage to vegetation and pavement adjacent to storage facilities being filled. Contractor delivery personnel who have not exercised reasonable care and delivery equipment that is poorly maintained may be refused entrance to the installation by the installation Commander.
