

**C16.69-4 SPECIFICATIONS (CONT'D) (COG 4) (DESC MAR 1999)**

**SPECIAL NOTE:** The following paragraph is a restatement of paragraph (a) of the FUEL SPECIFICATIONS (PC&S) clause and is included for emphasis.

Supplies delivered under this contract shall conform to all Federal, State, and local environmental requirements applicable to the geographic location of the receiving activity on the date of delivery. The list of such requirements contained in this contract is not intended to be a complete list, and the Contractor shall be responsible for determining the existence of all such requirements at the time deliveries are made. In the event that a Federal, State, or local environmental requirement is more stringent than a specification contained in this contract, the Contractor shall deliver product that complies with the more stringent requirement. Product that fails to meet the more stringent requirement will be considered to be a nonconforming supply.

**REFORMULATED GASOLINE REQUIREMENTS.** Reformulated gasoline is designed to reduce air toxins and volatile organic compound emissions (VOCs) by decreasing the amount of toxic compounds, such as benzene, lowering the evaporation rate, and increasing the amount of oxygenate blended with the fuel.

**NOTE:** Starting June 1, 1999, the below information applies:

<u>LOCATION</u>	<u>PERIOD</u>	<u>MINIMUM OXYGEN CONTENT</u>
<b>MISSOURI COUNTIES</b>		
Franklin, Jefferson, St. Charles, St. Louis, and the city of St. Louis	Year Round	2.0 Wt%

(DESC 52.246-9FY5)
