C16.69 FUEL SPECIFICATIONS (PC&S) (DESC SEP 2000)

Supplies delivered under this contract shall conform to all Federal, State, and local environmental requirements applicable to the geographic location of the receiving activity on the date of delivery. The list of such requirements contained in this contract is not intended to be a complete list, and the Contractor shall be responsible for determining the existence of all such requirements at the time deliveries are made. Selected regional environmental requirements are highlighted in the SPECIFICATIONS (CONT'D) clause. In the event that a Federal, State, or local environmental requirement is more stringent than a specification contained in this contract, the Contractor shall deliver product that complies with the more stringent requirement. Product that fails to meet the more stringent requirement will be considered to be a nonconforming supply. Product(s) to be supplied shall fully meet the requirements of the applicable specification(s) as cited below.

NOTE: Gasoline gasohol and reformulated gasoline Reid Vapor Pressure (RVP) specification requirements are seasonal and vary geographically throughout the United States. Therefore, Contractors are expected to know the local, State, or Federal RVP requirements of areas being supplied and comply with those requirements.

(ii) Blending of oxygenates into gasoline to meet oxygenated fuel requirements shall be accomplished by mechanical mixing or agitation in a tank, or by in-line blending, prior to loading the product into transport equipment, and the resultant product must meet contract requirements.

(3) See the SPECIFICATIONS (CONT'D) clause for additional regional gasoline requirements.

(b) GASOHOL, AUTOMOTIVE, UNLEADED, GRADES REGULAR, MIDGRADE, AND PREMIUM.

Products shall conform to Commercial Item Description (CID) A-A-52530 dated October 10, 1995, as modified below. In accordance with Executive Order 12261 of January 5, 1981, "Gasohol in Federal Motor Vehicles," Gasohol may be considered an acceptable substitute for Unleaded Gasoline. The Unleaded Gasoline items that permit the substitution of Gasohol are identified in the Schedule. Contractors are required to state, for each line item in their offer, whether Gasohol will be provided. Contractors will not be permitted to substitute Unleaded Gasoline under line items awarded as gasohol. Also, Contractors are not permitted to substitute gasohol for gasoline under line items awarded as gasoline, except when Government regulations mandate use of fuel containing an oxygenate for control of carbon monoxide pollution.

(1) OCTANE REQUIREMENTS.

(DESC 52.223-9F06)

THE FOLLOWING CLAUSE APPLIES ONLY TO PARTIAL SMALL BUSINESS SET-ASIDE LINE ITEMS THAT MAY BE CONTAINED IN THIS DOCUMENT.

I237.06 NOTICE OF PARTIAL SMALL BUSINESS SET-ASIDE (DEVIATION) (DESC MAR 1999)

(a) **DEFINITION. Small business concern**, as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation.

(b) **GENERAL.**

(1) A portion of certain items of this procurement, as listed in the Schedule, has been set aside for award to eligible small businesses. The quantities indicated for such items in the Schedule include the set-aside portion. All offerors are urged to offer the maximum quantities they desire and are capable of delivering. Small business concerns interested in receiving a set-aside contract should submit an offer in the same manner as though there were no set-aside. Volumes offered by qualified small business concerns will be evaluated for the non-set-aside and set-aside portions of the procurement. Separate offers should not be submitted on the non-set-aside and set-aside portions.

(2) The partial small business set-aside of the procurement is based on a determination by the Contracting Officer that it is in the interest of maintaining or mobilizing the nation's full production capacity or in the interest of national defense programs, or in the interest of assuring that a fair portion of Government procurement is placed with small business concerns.

(3) All of the offers received under this solicitation will first be negotiated as to price and an evaluation will be made as though there were no set-aside.

(4) For the purposes of set-aside evaluation, when an offer contains increments at different prices, each increment will be considered a separate offer. Except as provided in (d) below, negotiations will be limited to the offered quantities not awarded under the provision of (c)(2) below.

(c) **SET-ASIDE AWARD PROCEDURE.**

(1) The price for the small business set-aside portion will be negotiated by the Contracting Officer based upon prices the Government would otherwise pay under this solicitation had there been no set-aside for supply of the location at which the set-aside is placed, adjusted for transportation charges and other factors. Awards will be made to the small business concern whose offer is determined by this evaluation to be low without further negotiation. Contracts for the remaining set-aside portions will be negotiated with those eligible small business concerns that have submitted a responsive offer on the various items for which a set-aside has been established.

(2) Negotiations for small business set-aside awards will begin with the small business concern with the lowest evaluated price and a quantity of offered product remaining. If the low small business concern on the item does not offer to supply product at the set-aside price, the next low small business concern on the item will be given the same opportunity, and continuing with the next low small business concern until all small business concerns have been contacted.

(3) After set-aside negotiations have been concluded, a final evaluation will be accomplished. All eligible offerors, without regard to the size of the company, will be afforded an opportunity to compete for non-set-aside quantities. The Government reserves the right to make awards to the otherwise low offeror for all or any portion of the set-aside quantities, without regard to the size of the company, if eligible small business concerns do not offer a quantity of product sufficient to meet a set-aside requirement or do not offer to supply at the set-aside prices. The total quantity that will be awarded a small business offeror on both the unreserved and reserved portions will not exceed the total quantity offered under this solicitation by such small business offerors. However, if insufficient product is offered by small business concerns to meet the quantity set aside for small business, small business concerns with which the Government has already commenced negotiations may be given an opportunity to offer additional product.

(4) Where the Trade Agreements Act applies to the non-set-aside portion, offers of eligible products will be treated as if they were qualifying country end products.

(d) **AGREEMENT.** For the set-aside portion of the acquisition, a small business concern submitting an offer in its own name agrees to furnish, in performing the contract, only end items manufactured or produced by small business concerns inside the United States. The term **United States** includes its territories and possessions, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, and the District of Columbia. If this procurement is processed under simplified acquisition procedures and the total amount of this contract does not exceed \$25,000, a small business concern may furnish the product of any domestic firm. This paragraph does not apply in connection with construction or service contracts.

(DESC 52.219-9F30)

THE FOLLOWING CLAUSE APPLIES ONLY TO FEDERAL CIVIL ITEMS CONTAINED IN THE NON-SET-ASIDE PORTION OF THIS ACQUISITION.

I240.01 NOTICE OF PRICE EVALUATION ADJUSTMENT FOR SMALL DISADVANTAGED BUSINESS CONCERNS (ALT I) (OCT 1998)

(i) No material change in disadvantaged ownership and control has occurred since its certification;

(ii) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(iii) It is listed, on the date of this representation, on the register of small disadvantaged business concerns maintained by the Small Business Administration;

(2) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted. In this case, in order to receive the benefit of a price evaluation adjustment, an offeror must receive certification as a small disadvantaged business concern by the Small Business Administration prior to contract award; or

(3) Is a joint venture as defined in 13 CFR 124.1002(f).

Historically black college or university means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2. For the Department of Defense (DoD), the National Aeronautics and Space Administration (NASA), and the Coast Guard, the term also includes any nonprofit research institution that was an integral part of such a college or university before November 14, 1986.

Minority institution means an institution of higher education meeting the requirements of Section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1135d-5(3)) which, for purposes of this clause, includes a Hispanic-serving institution of higher education as defined in Section 316(b)(1) of the Act (20.U.S.C. 1059c(b)(1)).

United States means the United States, its territories and possessions, the Commonwealth of Puerto Rico, the U.S. Trust Territory of the Pacific Islands, and the District of Columbia.

(ii) For DoD, NASA, and Coast Guard acquisitions, otherwise successful offers from historically black colleges or universities or minority institutions;

(iii) Otherwise successful offers of eligible products under the Trade Agreements Act when the dollar threshold for application of the Act is equaled or exceeded (see Section 25.402 of the Federal Acquisition Regulation (FAR));

(iv) Otherwise successful offers where application of the factor would be inconsistent with a Memorandum of Understanding or other international agreement with a foreign government; and

(v) For DoD acquisitions, otherwise successful offers of qualifying country end products (see sections 225.000-70 and 252.225-7001 of the Defense FAR Supplement).

(2) The factor shall be applied on a line item basis or to any group of items which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor. The factor may not be applied if using the adjustment would cause the contract award to be made at a price that exceeds the fair market price by more than the factor in paragraph (b)(1) of this clause.

(c) **WAIVER OF EVALUATION ADJUSTMENT.** A small disadvantaged business concern may elect to waive the adjustment, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraph (d) of this clause do not apply to offers that waive the adjustment.

[] Offeror elects to waive the adjustment.

I240.01 Cont'd

(d) **AGREEMENTS.**

(1) A small disadvantaged business concern, that did not waive the adjustment, agrees that in performance of the contract, in the case of a contract for--

- (i) Services, except construction, at least 50 percent of the cost of personnel for contract personnel will be spent for employees of the concern;
- (ii) Supplies (other than procurement from a nonmanufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern;
